

University Health Network-Toronto General Hospital is pleased to be offering a 40-hour introductory course in Hyperbaric Medicine

Why should I take this course?

- Approved by the Undersea and Hyperbaric Medical Society (UHMS) for 40 CME credits
- Recognized by the National Board of Diving and Hyperbaric Medical Technology (NBDHMT) for 40 CME credits
- Health Care Providers may obtain certification as a Certified Hyperbaric Technologist (CHT)
- Gain understanding of how Hyperbaric Therapy may benefit patients in a clinical environment
- Lecture panel consists of highly experienced and qualified hyperbaric physicians and technicians

Who should take this course?

- Physicians, Surgeons, Residents, Fellows
- Nurses, Wound Care Specialists, Paramedics, Respiratory Therapists
- Non-Health Care providers with an interest in hyperbaric medicine

Registration

Call: Sara Cibaj @ 416-340-3598

Email: Sara.Cibaj@uhn.ca

Registration deadline: March 9th, 2018 (Payment by credit card (Visa, MC, Amex) and cheque accepted)

COST

\$750.00 (UHN employees)

\$1200.00 (non-UHN employees and external applicants)

Course Objective:

The UHN Introductory Hyperbaric Medicine Course will provide participants the basic competencies to practice in hyperbaric medicine. The course will provide education on the indications and contraindications for hyperbaric treatments; it will provide them guidelines on the usage of treatment tables. The course will allow for hands-on clinical practice of these skill sets, in addition to learning how to manage the chamber and clinical emergencies during hyperbaric treatments, as well as theory and historical background. The UHN Introductory Hyperbaric Medicine Course is a comprehensive course for participants interested in entering into hyperbaric medicine practice.

Faculty:

Dr. Rita Katznelson MD, FRCPC, Medical Director

Dr. Anton Marinov MD, FRCPC

Dr. William Middleton MD, FRCPC

Dr. Azad Mashari MD, FRCPC

Dr. Wayne Evans MD, FRCPC

Ray Janisse RRT, CHT, Practice Lead

Tara Fowler RRT, BSc. Kin, MHS, CHT

Mustafa Wahaj RRT, BSc. (Hons), CHT

Aaron Rockman RRT, BSc. (Hons), CHT

Sean Doyle CHT

Topics include:

- History of diving and hyperbaric chambers
- Diving Physics
- UHMS approved indications
- Diving anatomy and physiology
- Emergency medical management
- Contraindications to hyperbaric therapy
- Treatment Tables
- Patient Management
- And much more
